

TUTOR PROGRAM

AN INITIATIVE BY IMS UNIME

Università
degli Studi di
Messina

TUTOR PROGRAM

WHAT IS IT?

The Tutor Program is a free peer-to-peer (P2P) program aimed at providing junior medical students with academic assistance from senior medical students.

An initiative by the Centre of Orientation and Placement (C.O.P) and the International Medical School at the University of Messina, the program is designed to help students improve their understanding of complex medical concepts and provide guidance in their coursework.

The goal of the program is to help junior medical students succeed academically and improve their confidence in their abilities.

HOW DOES IT WORK?

- The Tutor Program is structured to provide flexible tutoring services, with tutors available for a range of subjects and topics. Tutors can help with coursework, exam preparation, and study skills. The program also includes resources* such as study guides, practice quizzes, and other learning materials.
- The Tutor Program works by pairing junior medical students with senior medical students who have excelled in their coursework and have demonstrated strong academic performance. These senior students act as tutors, providing one-on-one or group tutoring sessions to their junior counterparts.

HOW WE HELP

The Tutor Program is structured to provide flexible tutoring services, with tutors available for a range of subjects and topics. Tutors can help with coursework, exam preparation, and study skills.

THE TUTORS

The goal of the program is to help fellow medical students succeed academically and improve their confidence in their abilities.

SIMONA CALABRESE

YEAR 6

I'll share my personal experience and knowledge to help you find the best study methods and tips for passing exams.

RENATO CARNEVALE

YEAR 6

I will be your study guide and help you develop an effective study plan that will enable you to be successful in exams.

SANOBAR KHAN

YEAR 5

Aiming to win together, rather than one, using pictures and mnemonics and making learning fun.

TAMIR DIB

YEAR 6

I'll be happy to share with you my experience and knowledge and to help you in preparing for exams, time management and managing exam stress.

FRANCESCO CIPRIANI

YEAR 6

I'd love to help the new medical students organizing their studies and repeating topics, aiming to develop a study method that will help them to pass exams and learn faster.

ABDUL RAOUF MASTAN

YEAR 6

I aim to help fellow medical students succeed by learning out loud while gaining valuable teaching experience.
